Description

I confirmed [https://www.redmine.org/builds/logs/build_4.1-stable_sqlite3_ruby-2.6_173.html](https://www.redmine.org/builds/logs/build_4.1-stable_sqlite3_ruby-2.6_173.html) and the test failed. When I executed the tests in my local environment with the same seed value (--seed 8964), the following test failed.

```plaintext
% RAILS_ENV=test bundle exec rake db:migrate:reset
