Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	SCM	Estimated time:	0.00 hour
Target version:		Affected version:	4.0.2
Resolution:			
Description			
<p>Hello all</p> <p>i need your immediate help please, i setup a file repository and it lists the files under my windows directory perfectly but i noticed that it always list only the english named files, i have many arabic named files that i want them to be listed by the repo in my widows folder i have 3 directories:</p> <p>Best Practices International Projects □□□□□ □□□□</p> <p>the first 2 directories are shown by the redmine file system repository but the third one not listed, also the files with the arabic characters not appear on the file system repository.</p>
