

Redmine - Defect #36126

Attachments REST API includes internal port

2021-11-01 21:21 - Yuri Mamaev

Status:	Needs feedback	Start date:	
Priority:	Normal	Due date:	
Assignee:	Yuri Mamaev	% Done:	0%
Category:	REST API	Estimated time:	0.00 hour
Target version:		Affected version:	4.0.9
Resolution:			
Description			
Trying to get the JSON of the issue using API, with include=attachments, provides attachments links using internal port, not the domain name, port and protocol specified in settings.			
As an example: { "id": 6043, "filename": "test.txt", "filesize": 5119, "content_type": "text/plain", "description": "", "content_url": "http://redmine.example.org:3000/attachments/download/6043/test.txt", "author": { "id": 1, "name": "Yuri Mamaev" }, "created_on": "2021-10-18T18:38:13Z" } content_url expected to be: https://redmine.example.org/attachments/download/6043/test.txt			

History

#1 - 2021-11-03 07:55 - Marius BĂLTEANU

- Status changed from New to Needs feedback
- Assignee set to Yuri Mamaev

Did you set your "Host name and path" in Administration -> Settings -> General?

#2 - 2021-11-04 11:41 - Yuri Mamaev

Yes, hostname is set to hostname without port.
