

Redmine - Defect #3627

Can't search for numbers e.g. error codes

2009-07-16 19:08 - Chris Grieger

Status: Closed	Start date: 2009-07-16
Priority: Low	Due date:
Assignee:	% Done: 0%
Category: Search engine	Estimated time: 0.00 hour
Target version:	Affected version: 0.8.4
Resolution: Wont fix	

Description

Searching for an error code (e.g. '403') brings you to the issue [#403](#).

This error occurs in the current devel version [r2918](#) as well as the version running on this website.

It would be better to only get redirected to an issue by entering #<issueid> or issue:<issueid>

Regards,
Chris

History

#1 - 2009-07-16 20:26 - Chris Grieger

- File *search_redirect_issue_r2819.patch* added

I've attached a patch which changes the behavior of the search function.

It only redirects to the issue if the search string starts with '#' or 'issue:'.

#2 - 2009-07-17 01:09 - Mischa The Evil

I've related [#2350](#) to this issue...

#3 - 2009-07-18 09:39 - Jean-Philippe Lang

- Status changed from *New* to *Closed*

- Resolution set to *Wont fix*

You can use double quotes to search for a number. Eg: "403"
<http://www.redmine.org/search/index/redmine?q=%22403%22>
