In my environment, even with the legend, when I hovered over the green part of the bar, the title was displayed as well as without the legend.
Do you get different results in your environment?

Hello,

I think that's can be like #36574 : PurpleMine2 theme...

If i change to alternate theme, it's OK....

I don't thinking to change theme. OK i need to create issue in Github PurpleMine2 project.

Sorry.

Sorry.

It doesn't matter.
Thanks for sharing what was a theme issue.
