<b>Target version:</b>		<b>Affected version:</b>	4.2.3
<b>Resolution:</b>	Invalid		
<b>Description</b>			
Hello,			
In progress_bar function (ApplicationHelper), you use a <p> to display legend.			
- Without legend: titles are display on mouseover event.			
- With legend: titles are not display on mouseover event.			
To display all titles, change content tag <p> by a <span> and it's work.			
Thanks

In my environment, even with the legend, when I hovered over the green part of the bar, the title was displayed as well as without the legend. Do you get different results in your environment?

Hello,

I think that's can be like [#36574](#) : PurpleMine2 theme...

If i change to alternate theme, it's OK....

I don't thinking to change theme. OK i need to create issue in Github PurpleMine2 project.

Sorry.

Sorry.

It doesn't matter.

Thanks for sharing what was a theme issue.
