

Redmine - Feature #36699

Change the text of the user link when converting @user notation to html

Resolution:	Fixed		
Description #13919 added the Mention feature to Redmine. There are three types of notations that can be converted to user links: @user, user#1, and user:user. With this change, only @user will have the Mention feature. Currently, when you convert @jsmith to HTML, you get the link "John Smith". I propose to change this to the following: <ul style="list-style-type: none">Plan 1. john wilson SmithPlan 2. @jsmith(John Smith)Plan 3. @jsmith Reason for change: <ul style="list-style-type: none">The functions are different from those of other user#1 and user:user notations and should be separated.I think it's important to have @ in front of the name so that people who don't know much about Redmine realize that they can use the Mention feature. Concerns: Since @jsmith has always been assumed to be converted to "John Smith", changing it may break the display of wiki pages and issues. Please let me know what you think.

Revision 21440 - 2022-02-24 22:54 - Marius BĂLTEANU

Add class user-mention to user classes when user is linked using @ (#36699, #13919).

Revision 21468 - 2022-03-19 11:00 - Marius BĂLTEANU

Render mentioned users with leading @ and highlight (#36699, #13919).

- File mention.png added

For now I've added the class user-mention to user links generated using @ ([r21440](#)).

The easiest way is to obtain "@John Smith" using two different approaches:

1. Only from CSS:

```
diff --git a/public/stylesheets/application.css b/public/stylesheets/application.css
index f837a710e..57b3a9680 100644
--- a/public/stylesheets/application.css
```

```

  a.project.closed, a.project.closed:link, a.project.closed:visited { color: #999; }
  a.user.locked, a.user.locked:link, a.user.locked:visited {color: #999;}
+a.user.user-mention:before {
+  content: "@";
+}
```

2. Rendered with @

```
diff --git a/app/helpers/application_helper.rb b/app/helpers/application_helper.rb
index 33f72e144..c91f7cbaa 100644

+     link = link_to_user(u, :only_path => only_path, :class => 'user-mention', :is_mention => true) if
      u
    end
  end
```

Also, maybe we should highlight the users linked with @:

Thank you for your commit.

I think it's a good improvement that doesn't affect the existing look and feel, and people who want to change it can do so using css.

#4 - 2022-03-18 22:32 - Marius BĂLTEANU

- File 0001-Render-mentioned-users-with-leading-36699-13919.patch added

- Target version set to 5.0.0

I think it's better to actually render the display name with @. Patch attached.

#5 - 2022-03-19 11:01 - Marius BĂLTEANU

- Assignee set to Marius BĂLTEANU

- Target version deleted (5.0.0)

- Resolution set to Fixed

Change committed, thanks!

#6 - 2022-03-28 23:29 - Marius BĂLTEANU

- Status changed from New to Closed
