

Redmine - Defect #36700

redmine:email:receive_imap truncate body email

2022-02-24 15:59 - giorgio rossi

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Email receiving	Estimated time:	0.00 hour
Target version:		Affected version:	4.2.3
Resolution:			
Description			
Hi,			
In Redmine 4.2.3 every email received is stripped if message body contain "<-" chars. All body text is stripped starting from "<-"			
In Incoming emails settings all fields are empty.			
We try to change "Preferred part of multipart (HTML) emails" from text to HTML (experimental), but nothing changed.			
Thanks in advance
