Description

Two-factor authentication does not work if ROTP prior to 5.0.0 is installed (see message#67057). The attached patch sets the minimum required version of ROTP gem.

```
$ ruby test/integration/twofa_test.rb
Run options: --seed 18716

# Running:
F

Failure:
TwofaTest#test_should_require_twofa_setup_when_required_for_administrators [test/integration/twofa_test.rb:51]:
Expected response to be a <3XX: redirect>, but was a <500: Internal Server Error>

rails test test/integration/twofa_test.rb:34
F

Failure:
TwofaTest#test_should_require_twofa_setup_when_required_by_group [test/integration/twofa_test.rb:76]:
Expected response to be a <3XX: redirect>, but was a <500: Internal Server Error>

rails test test/integration/twofa_test.rb:55
.
.
.
```

Associated revisions
