<b>Target version:</b>	
<b>Resolution:</b>	
<b>Description</b> It is not possible to update an issue setting "related to" to an issue in a different project. Even if both projects are subprojects of the same "big" project.	

#### History

##### #1 - 2007-07-19 15:40 - David Petersen

This a major requirement for my company to switch from Mantis to RedMine is to be able to relate tickets no mater what project they are in.

##### #2 - 2007-08-12 11:32 - Jean-Philippe Lang

Done in rev 620.  
An option was added to allow relations between issues from different projects.  
This option can be set in Admin -> Settings (default: false).
