

Redmine - Feature #3680

Issue Dependencies

2009-07-27 17:24 - Daniel Sovino

<b>Status:</b>	Closed	<b>Start date:</b>	2009-07-27
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Resolution:</b>	Fixed		
<b>Description</b> It would be amazing if it would be an option where i can determine if a Issue is a "sub-child" of another Issue, and be able to show that dependency on the Gantt chart, kinda "Microsoft Project", or "jsgantt", from where I took the snapshot attached...  Thanx in advance, your platform kicksass  Daniel Sovino

Please, look at subtasks plugin: <http://www.redmine.org/issues/443>

#2 - 2010-02-09 19:02 - Sylvain Guimond

I agree with that. Redmine won't be completly efficient without that feature. I saw a lot of issues openend on that. Is anyone working on that problem?

#3 - 2013-01-26 23:58 - Mischa The Evil

- Status changed from New to Closed
- Priority changed from High to Normal
- Resolution set to Fixed

Subtasks were introduced via issue #443. If an issue is a subtask it has it's parent task value set which is displayed on the issue form.

[...] and be able to show that dependency on the Gantt chart [...]

Was re-added via [#7128](#).

Starting from Redmine [2.3.0](#) also precedes/follows and blocks/blocked issue relations are displayed on the Gantt diagram, via [#3436](#).
