

Redmine - Feature #3694

No way to disable wiki markup

2009-07-30 18:10 - Yuri Astrakhan

Status:	Closed	Start date:	2009-07-30
Priority:	Normal	Due date:

Category:		Estimated time:	0.00 hour
Target version:			
Resolution:	Invalid		
Description			
Would be great to be able to disable wiki markup for a given portion of the text - <code><nowiki>#123</nowiki></code>			

History

#1 - 2009-07-30 22:30 - Mischa The Evil

- Status changed from New to Closed
- Resolution set to Invalid

This is already possible from Redmine 0.7. Just use an exclamation mark to precede the given portion of text e.g.

`!#123`

which produces simply: #123.

Thus it does not parse the regular issue-links into actual links. See [RedmineWikiFormatting](#) below "escaping".

#2 - 2009-07-30 23:06 - Yuri Astrakhan

Is it possible to disable other markup? Like * or _ ?

#3 - 2009-07-30 23:13 - Mischa The Evil

`*Like* _this_ ?`

`@*Like*@ @_this_@ ?`

#4 - 2015-03-04 12:24 - Jānis Elmeris

Nope. I do not want it to be formatted as code, monospaced. Just regular text without any special formatting. I would use it for copying text from somewhere else, written without being aware of any Wiki formatting that might be applied.
