<b>Target version:</b>		<b>Affected version:</b>	4.1.1
<b>Resolution:</b>	Invalid		
<b>Description</b>			
Hi. I'm a newbie to Redmine. My issue is, when a user delete a comment, it's not showing that particular user deleted that issue. So I would like to know, is this activity recorded in the redmine logs? If yes, how can I view that certain log?			
Thank you.
