

Redmine - Defect #37063

Code highlight adds trailing space after quotes

2022-05-01 13:35 - Vitaly vit9696

Status:	Confirmed	Start date:	
Priority:	Normal	Due date:

Category:	Text formatting	Estimated time:	0.00 hour
Target version:		Affected version:	5.0.0
Resolution:			

Description

The following code:

```
<pre><code class="shell">
test1="123"
test2="456"
</code>
```

Generates the following HTML code:

```
<pre><code class="shell syntaxhl" data-language="shell"><span class="nv">test1</span><span class="o">=</span><span class="s2">"123"</span>
<span class="nv">test2</span><span class="o">=</span><span class="s2">"456"</span>
</code>
```

After both s2 spans at the end of the line an empty space character is generated, which is copyable from Safari 15.4. This bug is even reproducible here.
