Description

Seems like a config-error.
I am sure this is not supposed to be possible.

History

#1 - 2022-06-09 20:10 - Holger Just

- Status changed from New to Closed

- Resolution set to Fixed

I have locked all of the individual changelog wiki pages; they are now editable only by project members of the [Redmine](#) project.

Many older changelog pages were already locked, newer ones were previously open-for all. I have checked for any malicious edits but have not found any.

Thank you Markus for the heads-up.
