- Status changed from Closed to Reopened

As the list of available languages is currently "manually" documented in public/help/code_highlighting_languages.html, the new lexers would have to be added there too, similar to the previous update in #36325.

As proposed in #36594, we likely want to either generate this automatically or introduce some controller action for that.

#4 - 2022-06-11 10:54 - Go MAEDA
