Could you elaborate on what the problem is?

##### #2 - 2022-06-29 14:45 - Nono Nono

The columns should be distributed evenly, currently there is a line break in every column because the assignee is split across two lines (can't be seen on the screenshot so you have to trust me on this one :)

I suppose it is just a CSS issue: fixing column widths

Confirmed the issue.

Probably it is caused by source:trunk/public/stylesheets/application.css@21642#L570 in r21642 (#36453).

The appearance is even worse if CJK ( Chinese / Japanese / Korean) characters are used in the assignee's name.

I think it would be good to revert r21642.

- File 37282.patch added

Attaching a patch. It adjusts subject width to 50% (as it was previous, wont take that much space) and fixes line breaks in the assigned\_to column for CJK.

**#11 - 2022-09-27 22:18 - Marius BALTEANU**

@Go Maeda, the fix works for you? Or would you prefer to revert the changes?

Can you test this one as well?

#### #13 - 2022-09-27 22:46 - Marius BALTEANU

- *Subject changed from `subtask isn't displayed correctly since 4.2.7` to `Subtask isn't displayed correctly since 4.2.7`*

#### #14 - 2022-09-29 09:17 - Go MAEDA

I confirmed the both `attachment:37282.patch` and `attachment:fix_for_37282.patch` fixes the issue described in #37282#6, and didn't find any side effects.

I think we don't have to revert r21642.

**#15 - 2022-09-30 17:23 - Marius BALTEANU**

- Status changed from *Confirmed* to *Resolved*
- Assignee set to *Marius BALTEANU*
- Resolution set to *Fixed*

I've committed the second patch.
