

## Redmine - Feature #373

### Graphical slider for setting "% Done" field

2007-06-21 11:17 - Niko Schmuck

<b>Status:</b>	New	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Resolution:</b>			
<b>Description</b> A slider could visualize the progress of an issue in a more haptic way, probably leading to a slightly more intuitive way of setting it.

#### History

##### #1 - 2009-05-20 03:24 - Brad Lang

+1, the drop down box feels clunky for this field

Would something like this be suitable? <http://ajaxian.com/archives/rails-slider-component>

##### #2 - 2012-11-02 12:05 - Daniel Felix

- Description updated

Maybe, since jQuery is used for some kinds of interfaces, this could be handled with this:

<http://jqueryui.com/slider/>

With this implementation, the whole form backend don't have to be changed. Just the display should be changed.

##### #3 - 2013-01-15 11:04 - Daniel Felix

This could be implemented by a UI-Slider in combination of some input field which is display. The slider is for a fast setting of the input field. for everyone who wants to define it directly, there is still some input field which could be edited.
