

Redmine - Patch #37350

Do not load attachments in query list with description and last_notes

2022-06-26 11:48 - Alexander Meindl

Status:	Closed	Start date:

Target version:			
Description			
Currently if you enable description and last notes inline columns in issue list, textilizable loads not required attachments. Attachments are not displayed in this list => it is not required to load it.			
This behaviour create lot of not required database queries like:			
<pre>Attachment Load (0.4ms) SELECT `attachments`.* FROM `attachments` WHERE `attachments`.`contain r_id` = 62115 AND `attachments`.`container_type` = 'Issue' ORDER BY attachments.created_on ASC, at tachments.id ASC /*application:RedmineApp,controller:issues,action:index*/ ↳ app/helpers/application_helper.rb:940:in `+' Attachment Load (0.4ms)  SELECT `attachments`.* FROM `attachments` WHERE `attachments`.`contain r_id` = 62114 AND `attachments`.`container_type` = 'Issue' ORDER BY attachments.created_on ASC, at tachments.id ASC /*application:RedmineApp,controller:issues,action:index*/ ↳ app/helpers/application_helper.rb:940:in `+' Attachment Load (0.4ms) SELECT `attachments`.* FROM `attachments` WHERE `attachments`.`contain r_id` = 62113 AND `attachments`.`container_type` = 'Issue' ORDER BY attachments.created_on ASC, at tachm</pre>			
The attachment patch solves this problem.

This is not true. If image attachments are included in either the description or journals using the respective wiki syntax (!!), the images are rendered in the inline columns in the issue list. See e.g. [this query](#) on redmine.org. This change breaks this behavior.

#2 - 2022-06-27 08:22 - Alexander Meindl

Hi Mischa The Evil,

you are right! This issue can be closed, sorry for this needless noise.

#3 - 2022-06-27 21:03 - Marius BĂLTEANU

- Status changed from Needs feedback to Closed

Closing, thanks for your feedback.
