

Redmine - Defect #37402

ticket topic

2022-07-12 12:20 - Martina A.

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Administration	Estimated time:	0.00 hour
Target version:		Affected version:	3.4.2
Resolution:			
Description Why is it not possible to unselect the standard ticket field "topic"? When creating a new tracker, "topic" cannot be selected / unselected. We would not need this field as a standardfield in all of our Redmine projects. But currently the system forces us to fill in something, otherwise ticket cannot be created.			

History

#1 - 2022-07-12 12:26 - Martina A.
was also asked in forum last year by myself.
