<b>Description</b>	
<p>Hi everyone;</p> <p>I would like to request a custom fields sorting / overview. In the mean time, we have too many of them (and yes - we need them all :) ) and it is really hard as administrator to have an overview. (administration section - custom fields - list of custom fields)</p> <p>Are there any patches out there, which will allow a better sorting? Not only up and down. For example group fields to the projects, where they are used.</p> <p>Thanks everyone for contributing to Redmine.</p> <p>Martina</p> <p>our current environment please see jpg</p>
