<b>Target version:</b>		<b>Affected version:</b>	
<b>Resolution:</b>			

### Description

I had set a group that has some users.

Now, to create a issue and assign this issue to the group, set due day as yesterday, execute:

```
bundle exec rake redmine:send_reminders days=1 RAILS_ENV="production"
```

get error:

```
E, [2022-08-03T10:19:27.602043 #152172] ERROR -- : Email delivery error: end of file reached
```

I tried use crontab to trigger reminder, today I got the message:

```
# Logfile created on 2022-08-03 09:00:19 +0800 by logger.rb/v1.4.2

I thinks that means there has 39 issues over due day.

At the final, I set other issue over due day and assign to me only, the email can send to me, and I saw the content has the last one and above issues.

Please hava a check. Thanks.

#### Environment:

Redmine version	4.2.7.stable
Ruby version	2.7.0-p0 (2019-12-25) [x86_64-linux-gnu]
Rails version	5.2.8
Environment	production
Database adapter	Mysql2
Mailer queue	ActiveJob::QueueAdapters::AsyncAdapter
Mailer delivery	smtp

#### SCM:
