<b>Description</b>	
<p>Hello,</p> <p>In my page if we click on "Issues assigned to me" we're redirect to issue page with the query, but it's not the same.</p> <p>The error is on the filter "status" : function : 'status', operator : 'o' and no values.</p> <p>But, the method Query.as_params put a v[status]=" on the URL.</p> <p>To have the same result between my/page and issue's page. You need to change :</p> <pre>params[:v][field] = options[:values]</pre> <p>by :</p> <pre>params[:v][field] = options[:values] unless options[:values].reject{  v  v.empty? }.empty?</pre> <p>Thanks</p>
