- File `37623-v2.patch` added

I made the following changes to the original patch to improve consistency with the issues list:

1. Changed the format of the value of the Parent task column from "`{issue.parent.tracker} ##{issue.parent.id}: #{issue.parent.subject}`" from "`{issue.parent.tracker} ##{issue.parent.id}`". This is the same format as the value in the issues list.

`clipboard-202304081540-6ate1.png`

2. Changed the order of the "Parent task" in the "Available columns". It is now placed after "Tracker" as in the issues list.

`clipboard-202304081542-xcphc.png`

3. Put the "Issue's parent task" filter in the "Issue" group in the drop-down list. Before the change, it was not in any group.
