

Redmine - Defect #3767

sorting issues list by target version doesn't work

2009-08-21 14:32 - armin walland

Status:	Closed	Start date:	2009-08-21
Priority:	Normal	Due date:	
Assignee:	Mischa The Evil	% Done:	0%
Category:	Documentation	Estimated time:	0.00 hour
Target version:		Affected version:	0.8.4
Resolution:	Duplicate		
Description			
hi!			
i think there is a problem with the column sorter for "Target Version" in the issues list. clicking on the sorter adds an up/down arrow to the column header but the contents are not sorted. see the two attached screenshots.			
thanks a lot for your great work :)

I'm guessing this is because target version sorts by the version's assigned date, and not by name which you might have expected.

ah you're right! we didn't enter any dates for our versions because we do not know yet, when the deadlines should be. after entering dates for them the sorting works fine.

thanks for your reply!

- Category changed from Issues to Documentation

- Assignee set to Mischa The Evil

- % Done changed from 100 to 0

I'll document this better in the Redmine [Guide](#).

#4 - 2009-08-26 08:15 - Ewan Makepeace

I requested that targetversions be sorted by date, name (so that versions with no date will at least sort alphabetically) in [#1502](#).

Jean-Phillipe reported this implemented in [#2352](#)

I have not tested (Redmine has trained me to always put in dates now) but that should have fixed this issue?

Ahh, didn't noticed it. Thanks for providing the additional info. It is indeed implemented in current trunk (to become [0.9.0](#)).

Btw: obviously you meant to say it is implemented in [r2352](#) for issue [#1502](#) :)

Kind regards,

Mischa.
