

# Redmine - Defect #37706

## Failed when migrating db

2022-09-23 04:35 - j ronald

<b>Status:</b> Closed	<b>Start date:</b>
<b>Priority:</b> Normal	<b>Due date:</b>
<b>Assignee:</b>	<b>% Done:</b> 0%
<b>Category:</b> Gems support	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	<b>Affected version:</b> 5.0.2
<b>Resolution:</b> Invalid	

---

**Description**

---

**Env**

---

FreeBSD 13.1 amd64  
Redmine 5.0.2

---

**Problem**

---

Install redmine 5 following the official doc at <https://www.redmine.org/projects/redmine/wiki/RedmineInstall>  
except that redmine 4 db is restored before `bundle exec rake db:migrate`

```
% bundle config set --local without 'development test'  
% set RAILS_ENV=production  
# restore redmine 4 db, then try to migrate to redmine 5 as below  
% bundle exec rake db:migrate  
rake aborted!  
LoadError: cannot load such file -- listen  
% bundle info listen  
Could not find gem 'listen', because it's in the group 'development', configured to be ignored.
```

### History

#### #1 - 2022-09-25 08:25 - j ronald

Tested on Linux, no problem for Linux, so it's FreeBSD specific.

#### #2 - 2022-09-27 16:59 - j ronald

Solved as below for csh/tcsh

```
env RAILS_ENV=production bundle exec rake db:migrate
```

#### #3 - 2022-09-27 17:00 - j ronald

- Status changed from New to Resolved

#### #4 - 2022-10-02 09:40 - Marius BALTEANU

- Status changed from Resolved to Closed

- Resolution set to Invalid

Thanks for your feedback, closing!
