

Redmine - Defect #37729

Time entries listed/visible even for issues not accessible by user

2022-10-01 10:08 - Attila Bognar

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Time tracking	Estimated time:	0.00 hour
Target version:		Affected version:	4.2.7
Resolution:	Wont fix		
Description			
When time entries are listed for a project, even those are listed that are linked to non-accessible issues (either not accessible because of permissions or because they are private by another user).			
Related issues:

- Status changed from New to Closed

- Resolution set to Wont fix

Indeed, but I don't think it is a defect. Time entry visibility is (and has always been) independent of issue visibility. Time entries and issues aren't coupled in any way regarding object visibility.

Instead, time entry visibility depends entirely on the :view_time_entries permission together with the "time logs visibility" role setting that determines if the role can view all or own time entries only.

#2 - 2022-10-01 15:43 - Mischa The Evil

- Is duplicate of Defect #12287: Time entries of private issues are visible by users without permission to see them added

#3 - 2022-10-01 21:54 - Attila Bognar

I can see it but cannot understand the logic behind it (I thought there is no other option because it is evident that the time entries of a non-accessible issue cannot be accessed; why would someone need to see the entries of an issue he cannot see?).
