**Description**

- 'My page' block name translation as added via [#3057](r2659) should be showcased in the bundled example plugin ( [source:/trunk/extra/sample_plugin](#)) to decrease the need for a FAQ item (as extensive as) like [Plugin_Internals#Hooking-in-MyPage](#).
- [Plugin_Internals#Hooking-in-MyPage](#) should be improved and made more concise.

Then, subsequently,

- [Hooking in MyPage](#) should be moved to [Plugin_FAQ](#).
- [Plugin_Internals](#) should be marked as 'outdated' and 'in need of an update'.
