Target version:				
Resolution:	Duplicate			

Description
Today we can close and refs a issue via commit message em SCM.
Would be nice to assign issue to another user.
This is very useful to me, as when a developer fix a issue he must assign it to his analyst

If I may interject here, how would this work? Would you specify (fixes #23, reassign to John Doe)? What if the name was misspelt?

I don't think the SCM support should be bloated with making it essentially a remote control for the bug tracker...

Is something like this Stavros, but I don't think this way.

After close/resolve a bug/feature, change a issue status and owner is a common action in many environments

#3 - 2009-08-31 18:03 - Anonymous

Yes, we need this feature for helpdesk by phone.

Pat

#4 - 2013-05-11 12:02 - Matthias B.

Just see that this feature got two requests: #11565 and #3783 (this)

#5 - 2013-05-13 16:13 - Toshi MARUYAMA

- Status changed from New to Closed

- Resolution set to Duplicate

I close this issue as duplicate of #11565, because #11565 has examples and more discussions.
