Redmine - Defect #37842

Related issue can update other due date issues in other projects that you don't have rights

2022-10-27 13:38 - Riky Andrean

Status:	New		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Issues		**Estimated time:**	0.00 hour
Target version:				
Resolution:			**Affected version:**	4.2.8

Description

Assume you have 2 different projects in Redmine:

1. Project A issue #1 where you have rights to update the related issue field
2. Project B issue #2 where you don't have rights at all

How to reproduce the issue:

- Update issue #1 and relate it to the issue #2 using precedes or follows with delays.
- Issue #2 due date will be updated automatically. (Which supposedly can't be updated).

It seems quite strange to be able to update issue in other projects where we don't have rights to.

History

#1 - 2022-10-27 13:43 - Riky Andrean

Sorry for using issue numbering on the description like:

```
#1
```

I don't mean to refer to the existing issues in this site.
