Target version:		Affected version:	
Resolution:	Duplicate		
Description			
<p>I am using email retrieval with imap to create issue and i have a problem if email subject contains some non ascii characters (UTF-8 for example). The issue title contains some 8 bits characters using an UTF-8 database field so title is not well display.</p> <p>Everything is ok for description of the issue, it concerns only title of the issue.</p> <p>Any idea ?</p> <p>Tx, Pat</p>
