Description			
Dear All,			
Users can create new issues directly via the web interface or by sending email. They used to insert inline images (screenshots) in emails they send. I want to attach those inline images in the new issues created or display the in the issue description. Is it possible ?			
Regards

would this planed to implement in next versions?

nice function, most users uses inline images

#5 - 2014-09-18 11:55 - Henning N

It'd be nice for us too.

Is it planed to implement in one of the next version?
