| Category: | Issues workflow | Estimated time: | 0.00 hour |
| Target version: | | Affected version: | 4.2.8 |
| Resolution: | Invalid | | |
| Description | | | |
| Hello everyone! Is there a way to create dynamic Fields in redmine and hide them when used in a ticket? We would like to create a kind of resource planning. There should be a pool of 50 machines, and if a machine is used in a ticket, it should no longer be selectable until I release it again | | | |

History

#1 - 2022-12-05 19:03 - Holger Just

- Status changed from New to Closed
- Resolution set to Invalid

Please do not use the issue tracker for configuration or usage questions. Please ask on the [forums](#) instead.

As for your question: no, that is not possible within Redmine.
