Target version:				
Resolution:	Wont fix		**Affected version:**	

Description

Challenge

The challenge is that https://demo.redmine.org does not presently support secured connection (HTTPS). Details about this and screenshots are into this other issue/ticket #38024.

Suggested Resolution

How about adding a free, secure, and very popular Let's Encrypt SSL certificate ? Documentation is at https://letsencrypt.org Optionally, this type of certificate can automatically renew itself to any future new version of TLS.

Contribution

Any volunteer for adding an SSL certificate to https://demo.redmine.org ? Both me and the Ubertus.org team would be happy, as volunteer, to contribute testing and documentation, if needed.

History

#1 - 2022-12-09 03:26 - Go MAEDA

- Category changed from Security to Website (redmine.org)

#2 - 2024-06-20 16:41 - Holger Just

- Status changed from New to Closed

- Resolution set to Wont fix

The http://demo.redmine.org service was discontinued entirely.
