Redmine - Patch #38135

Allow use of Puma 6.0.0 or later

2022-12-28 08:27 - Go MAEDA

Status:	Closed		Start date:	
Priority:	Normal		**Due date:**	
Assignee:	Go MAEDA		**% Done:**	0%
Category:	Gems support		**Estimated time:**	0.00 hour
Target version:	5.0.5			

Description
Since Capybara 3.37 and earlier did not support Puma 6, we have updated the Gemfile in r21934 to use Puma < 6.0.0.
Capybara 3.38.0 was released in November 2022 and it is compatible with Puma 6, so we can remove that limitation.

Sorry for too late response, but thanks for the patch (from #37867 discussion).

If possible, applying the same patch to 4.2-stable branch is really helpful.
