

Redmine - Patch #38139

Add guard clause to time_tag method to handle nil time

2022-12-30 08:59 - Go MAEDA

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Code cleanup/refactoring	Estimated time:	0.00 hour
Target version:	5.1.0		
Description			
This patch prevents an Internal Server Error from occurring when a nil value is passed to the time_tag method.			
For some reason, a table's created_at or updated_at may have an invalid value "0000-00-00 00:00". In this case, a nil value is passed to time_tag and the user encounters an Internal Server Error. This situation has been reported in #12026 and #12826 .
