

Redmine - Defect #38165

Users API ignores name and group_id parameter

2023-01-11 01:37 - Go MAEDA

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	REST API	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Fixed		

Description

Users API with a group_id parameter is supposed to return users who are members of the given group (see [Rest Users](#)).

It works as expected in 5.0-stable but does not work in the current trunk (I tested in [r22012](#)). Even if you pass the group_id parameter, it returns all users. The group_id parameter is ignored.

5.0-stable: [ShowHide](#)

```
$ curl --user admin:password http://localhost:3000/users.json?group_id=10 | jq .
{
  "users": [
    {
      "id": 8,
      "login": "miscuser8",
      "admin": false,
      "firstname": "User",
      "lastname": "Misc",
      "mail": "miscuser8@foo.bar",
      "created_on": "2006-07-19T17:33:19Z",

Related to Redmine - Patch #39181: /users backwards API compatibility

Closed

History

#1 - 2023-01-11 01:56 - Go MAEDA

This is due to [r21823](#). Because of the implementation of the query system for users list, UsersController#index no longer handles the group_id parameter.

#2 - 2023-01-12 03:26 - Go MAEDA

- Subject changed from Users API ignores group_id parameter to Users API ignores name and group_id parameter

It ignores the name parameter too.

#3 - 2023-12-28 08:59 - Go MAEDA

- Status changed from New to Closed

- Resolution set to Fixed

Fixed in [r22343](#).

#4 - 2023-12-28 08:59 - Go MAEDA

- Related to Patch #39181: /users backwards API compatibility added
