

Redmine - Defect #38177

Authentication oauth2

2023-01-12 21:28 - Antoine PINON

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Email notifications	Estimated time:	0.00 hour
Target version:		Affected version:	4.0.5
Resolution:			
Description			
Bonjour, Suite à l'annonce de Microsoft, l'authentification basique sera désactivée en janvier 2023. Comment m'assurer que Redmine supporte ce protocole d'authentification d'ici-là car le pool de mail ne fonctionnera plus.

I think that you have several options:

1. Not to use Microsoft mail solutions
2. Use Microsoft solutions and then
 1. Create [SMTP Relay](#) and use it the same way as an ordinary SMTP smart host
 2. For IMAP you can use an external plugin, e.g. [OAuth Plugin](#)
