

Redmine - Defect #38340

Bundle install error while upgrade from Redmine 5.0.4 to 5.0.5 on ruby 2.5.1 environment

2023-03-07 19:43 - Fernando Hartmann

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Ruby support	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:			
Description			
Trying upgrade with this environment			
<pre>ruby -v ruby 2.5.1p57 (2018-03-29 revision 63029) [x86_64-linux-gnu] rails -v Rails 6.1.7 gem -v 2.7.6</pre>			
Leads to the following error when installing gems			
<pre>Fetching gem metadata from https://rubygems.org/.. Resolving dependencies..... Using rake 13.0.6 Using concurrent-ruby 1.2.2 Using i18n 1.10.0 Fetching minitest 5.18.0 Installing minitest 5.18.0 Gem::RuntimeRequirementNotMetError: minitest requires Ruby version < 4.0, >= 2.6. The current ruby version is 2.5.0. An error occurred while installing minitest (5.18.0), and Bundler cannot continue. <pre> Make sure that `gem install minitest -v '5.18.0' --source 'https://rubygems.org/'` succeeds before bundling. </pre></pre>			
In Gemfile:			
<pre>rails was resolved to 6.1.7.2, which depends on actioncable was resolved to 6.1.7.2, which depends on actionpack was resolved to 6.1.7.2, which depends on actionview was resolved to 6.1.7.2, which depends on rails-dom-testing was resolved to 2.0.3, which depends on activesupport was resolved to 6.1.7.2, which depends on minitest</pre>			

History

#1 - 2023-03-07 20:04 - Pavel Rosický

1/ upgrade your Ruby version (recommended). Official 2.5 support ended 2 years ago. Redmine 5.0 still supports it, but dependent gems are slowly dropping support, see <https://www.redmine.org/projects/redmine/wiki/RedmineInstall> and <https://www.redmine.org/issues/37159>

2/ upgrade rubygems, there was a bug in your version that prevents choosing older gem versions automatically, but they've dropped support for older Ruby versions as well <https://github.com/rubygems/rubygems/pull/6107>

3/ lock gems to their older versions in your Gemfile

```
gem 'minitest', '5.15.0'
```

[...]

I did the lock gem for now, and it solved my problem.
Thanks for your help
