<b>Resolution:</b>			
<b>Description</b>			
Hello!			
I tried to set up the send_reminders plugin using the command			
<pre>bundle exec rake redmine:send_reminders days=5 debug="false" RAILS_ENV="production"</pre>			
while I am able to send a mail using the /settings?tab=notifications "Send Test Email" function, the send_reminders is not working and the message			
<pre>root@5748e1b652d7:/usr/src/redmine# bundle exec rake redmine:watchers:prune W, [2023-03-08T20:44:58.569531 #54] WARN -- : Creating scope :sorted. Overwriting existing method User.sorted</pre>			
appears. Any idea how to troubleshoot this?
