Redmine - Defect #38376

WEBAPI - Create project with custom fields

2023-03-24 17:10 - Diego Boca

Status:	New		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Projects		**Estimated time:**	0.00 hour
Target version:				
Resolution:			**Affected version:**	5.0.2

Description

I'm trying to create a new project using the attached json file.

The Project has been created correctly but the custom field is not filled in.

No errors are provided.

The credential used to call the web api is the username and the password of the administrator of the redmine installation.

History

#1 - 2023-03-24 22:18 - Jean-Philippe Lang

"custom_field_values" should be inside the "project" hash, at the same level as the other project attributes (eg. name, identifier…), not outside.
