

Redmine - Defect #38388

Cannot generate 2FA backup codes from redmine.org

2023-03-29 06:34 - pasquale [:dedalus]

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Website (redmine.org)	Estimated time:	0.00 hour
Target version:		Affected version:	4.2.9
Resolution:	Fixed		
Description			
I think there is some misconfiguration on the web server: the email is send but the codes aren't generated.			
Thanks.

History

#1 - 2023-03-29 06:43 - Go MAEDA

- File clipboard-202303291343-pfwlp.png added
- Status changed from New to Confirmed

I have confirmed the issue. Redmine show 500 error when I attempted to generate backup codes.

In Redmine 4.2, security notifications seem to be sent synchronously, unlike other notifications that are sent later. It triggers a timeout when sending the notification from redmine.org.  
I've disabled these notifications and 2FA backup codes are now displayed.

#3 - 2023-04-03 20:10 - pasquale [:dedalus]

Now it works, thanks!

#4 - 2023-10-23 04:23 - Mischa The Evil

- Status changed from Confirmed to Closed
- Resolution set to Fixed

pasquale [:dedalus] wrote in [#note-3](#):

Now it works, thanks!

Thanks for the feedback. Closing this solved issue.

I've opened feature request [#39218](#) to track the request for sending security notifications asynchronously too.
