

Redmine - Feature #38416

Ability to disable the priority field

2023-04-06 10:40 - Go MAEDA

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:	5.1.0		
Resolution:	Fixed		
Description <p>Redmine can disable core fields such as subject, description, and assignee per tracker (#1091). However, the priority field cannot be disabled currently. The attached patch adds the ability to the priority field as well.</p> <p>I have been asked many times how to disable the priority field. Since Redmine's flexible issue tracking features can be used for a wide range of purposes, there are use cases that don't need the priority field. The ability to disable the priority field will make Redmine easier to use in such use cases.</p> <p>After applying the patch, You will be able to disable priority as well as other fields in the tracker's edit page. When the priority field is disabled, the default status is set for the newly created issue.</p> <p></p>

Committed the patch in [r22185](#).

#6 - 2023-04-14 09:37 - Go MAEDA

- Status changed from Closed to Reopened

'priority_id' must not be added to the beginning of CORE_FIELDS, because the array subscripts correspond to the bits in Tracker#fields_bits.
