Resolution:	Fixed	**Affected version:**	

Description

I was looking for the documentation on adding the values for custom fields on user creation. Adding an example of usage would be nice (as it's documented on issues api)

Parameters: custom_fields: array of custom field values to add

And within the json/xml something like this:

```
"custom_fields": [
    {
        "id": 1,
        "name": "FieldName",
        "value": "FieldValue"
    }
]
```

History

#1 - 2023-12-08 20:34 - Lorenzo Meneghetti

inserted new line in user API wiki:

- custom_fields - See Custom fields

thanks

#2 - 2023-12-10 03:27 - Marius BĂLTEANU

- Status changed from New to Closed

- Resolution set to Fixed
