Target version:			
Description			
With Rails 2.3.4, Engines are no longer able to override Redmine's routes. My new plugin should fix this: http://github.com/edavis10/prepend_engine_routes			

History

- Status changed from 7 to Closed

Just did some more testing and it looks like this isn't needed at all, Rails is allowing plugins to override the routes in 2.3.4. If anyone else has this problem, please reopen this issue with your details.

Tested with: http://github.com/edavis10/redmine_user_homepage
