

Redmine - Feature #38839

A developer or project manager can update an issue (submit a note) without editing the issue first

2023-07-12 19:59 - benjamin melançon

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Resolution:			
Description			
A person ought to be able to make a status update without the extra click (and visual noise) of editing the ticket first.
