- Status changed from New to Closed

- Affected version (unused) deleted (0.8.5)

- Resolution set to Invalid

- Affected version deleted (0.8.5)

Hi yang
You should add this help message to the forum, it's not an issue.

```
If you didn't modify the "encoding: utf8" field in database.yml, the error maybe caused by your database's enc
oding.
 Are you sure you create the database schema with encoding of utf8?
 And we need to know your redmine version.

Please post above message to forum or write email to me.
```
