Additionally I would ask to check behavior of just register user Gurpinderkour4240@conestogac.on.ca - <https://www.redmine.org/users/678905>. It looks very strange:

- he added one empty page [Project list](#)
- he created three strange issues for very old versions like 0.7, 0.8 and 0.8.2.

It looks as SPAM.

Looks like this guy created new account and continue:

#3 - 2023-08-10 10:03 - Go MAEDA

- Status changed from New to Closed

- Assignee changed from Jean-Philippe Lang to Go MAEDA

- Resolution set to Fixed

I deleted the Wiki page and the user account. Thank you for reporting the problem.
