

Redmine - Feature #390

Log time when change status to "Resolved"

2007-07-12 10:45 - Aivars Akots

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Resolution:			
<b>Description</b> It would be very nice and easy to use time logging if such option will be available while changing issues status to "Resolved". For me it seems logical - process example - I am working on some issue -> issue is fixed -> I am changing issue status and in this exact step I could log spent time.			

History

Feature committed in rev 586.  
Time can now be logged on any status change.
