Redmine - Patch #39050

New design for the calendar view

2023-09-09 10:22 - Yasu Saku

Status:	New		**Start date:**

Category:	Calendar		**Estimated time:**	0.00 hour
Target version:				

Description

I propose a new design for the calendar.
I have made it possible to visualize not only the start and end dates but also valid events.

History

#1 - 2023-09-09 10:29 - Yasu Saku

- File new_design_calendar.patch added

Sorry, I converted the encoding of the patch file from UTF-16 LE to UTF-8.

#2 - 2023-10-23 16:36 - vadim klochkov

cool idea

#3 - 2023-10-24 02:27 - Mischa The Evil

- Subject changed from New design calendar to New design for the calendar view

FWIW: I haven't looked into this patch extensively, but I don't think it is desirable to change Issue#css_classes this way. It changes the issue's CSS not only on the calendar view, but in more places throughout Redmine.
